

### **Enjoy your pet friendly stay at Graceland Drakensberg**

At Graceland, we are passionate about providing a pet-friendly environment for our guests! Our vast spacious grounds make it the perfect place to stay with your special pets.

None of our accommodation units are fenced-in, but we do have a large enclosure where your pets can stay while you go out and explore the valley without having to worry about your pet. We don't have a policy requiring your pet to be on a lead, but we advise caution when bringing them to Graceland for the first time.

We have our own resident female dog JubeJube who loves company & is part of our welcoming team.

It is important when bringing your pet that all inoculations are up to date especially rabies.

Please bring your own dog food, bowls and bedding, and enjoy the beautiful, uninterrupted views of the beautiful Champagne Valley & mountain ranges with your special furry friends.
